GRENAA- DENMARK**

20<sup>th</sup> March 2014

## **RE: THANKSGIVING AND APPRECIATION**

Dear friends from Utamaduni

On behalf of St. Cesilia association and the entire community of Bujora cultural centre, we confess to have received from you a container full of Hospital equipments (including an X-Ray) for our Dispensary commonly known as African Clinic through Mr. Knud Erik Asak.

Thank you very much for your concern and readiness to help and cooperate with us. We are very happy to inform you that we have finished the renovation of the African Clinic Building through the help of lion's Club in Denmark, and we are now in the process of getting permission and registration from the Government and we hope to re-open in the near future. The building for an X-ray is also in the process as the government is implementing this exercise.

The dispensary is expected to attend a big number of people in and around Bujora area and many people are eagerly waiting to get health services from this Dispensary.

We still hope for your continuing cooperation in many ways and we are waiting for you in the month of August this year.

I remain sincerely yours

**Fr. Fabian Mhoja Mayunga  
The Director**
